

GRITBIRD

design meets functionality

ABOUT US

Gribird was founded 2017 from the idea to develop new kind of outdoor fitness equipment which would combine landscape friendly design with multi- dimensional functionality.

Our mission still today is to make outdoor workouts accessible to everyone without compromising in the visual aspects of urban landscape design. When it comes to working out often the most simple tools and movements provide the most effective results. Thus our products are designed to provide best bang for buck exercises which are suitable for the majority of the population.

Our values include high quality manufacturing, best material solutions, landscape friendly design, ease of use and multidimensional functionality. Ultimately, we want to inspire everyone toward a healthier lifestyle.

PRODUCTS

Gritbird products are designed in a minimalistic way to fit into diverse range of landscapes and sceneries. The outdoor equipment are made in Finland by using sustainable and durable materials, such as stainless steel and recycled plastic. The products are practically maintenance free.

Gritbird products are produced according to EN 16630 standard and they are TÜV-certified. Both deep mounting and surface mounting options are available.

Standard colors are black and white, other color options are available by request.

GRITBIRD

Gritbird outdoor fitness equipment combine multidimensional functionality with Nordic design. The innovative design of Gritbird enables users to do over 20 different bodyweight exercises and the difficulty level can be adjusted by changing body position.

"GRIT ISN'T
TALENT.
GRIT ISN'T
LUCK.
GRIT IS PASSION
AND
PERSEVERANCE
FOR
LONG-TERM
GOALS"

Angela Duckworth, Psychologist

GRITREE

The imaginative design of Gritree outdoor workout station inspires everyone regardless of their age or fitness level to move and improve their well-being. Gritree provides a platform for suspension training where up to 4 individuals can work out simultaneously with efficient bodyweight movements. Suspension training is safe, scalable depending on fitness level, and very effective for improving physique and strength.

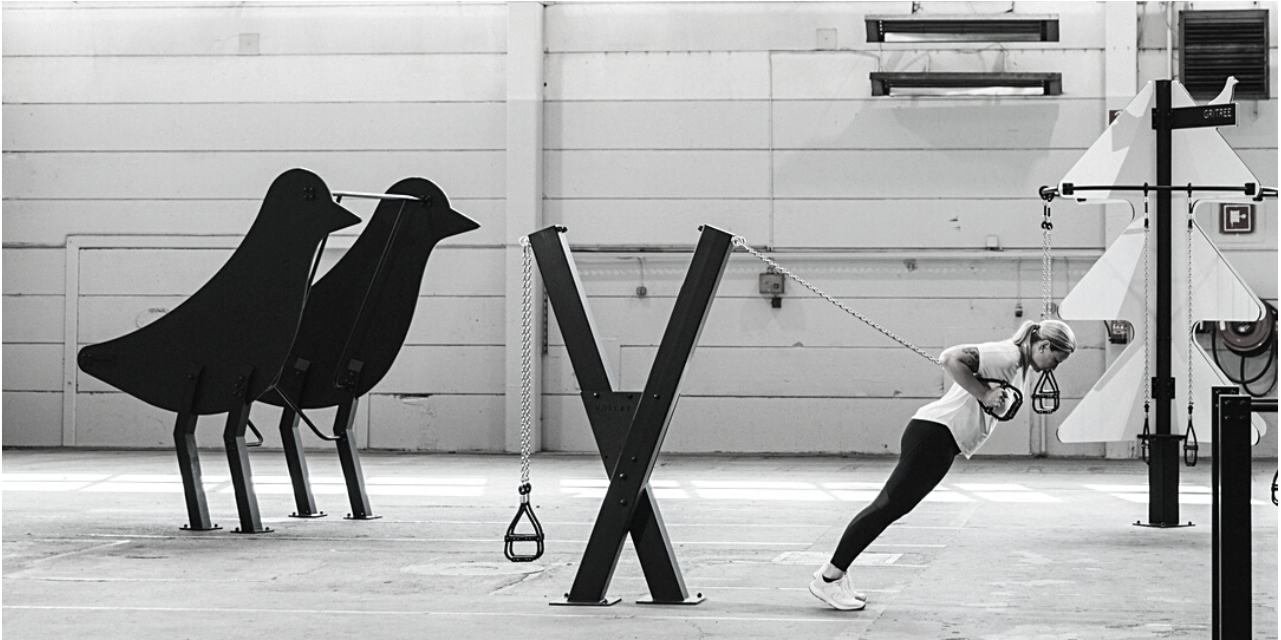

GRITBOX

Gritbox combines 3 different height jump boxes with abdominal bench and glute ham raise (GHR) functionalities. Gritbox is built to target both lower body and core muscles with its functionality. Inspired by Nordic design, Gritbox fits into multiple landscapes and sceneries and compliments our other products Gritbird and Gritree. The innovative features of Gritbox enable users to do multiple core and lower body targeting bodyweight exercises including ab raises, glute ham raises, jumps and squats.

NOLLA 2

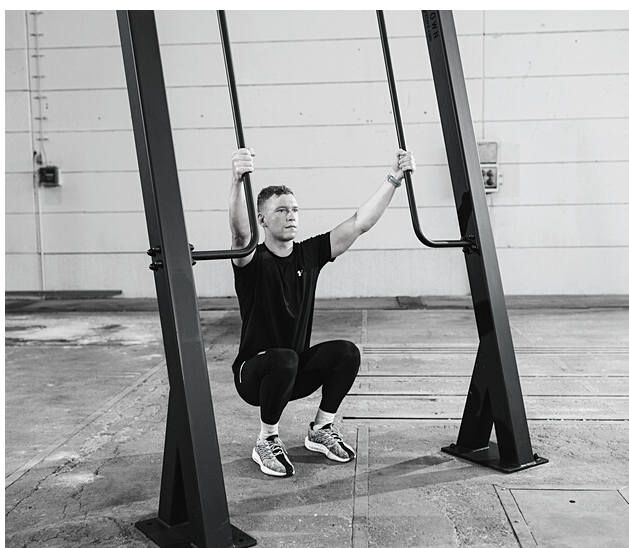

Nolla 2 is your ultimate partner for achieving a full-body workout in the fresh air. It's the perfect fitness solution for two and it enables you and a partner to simultaneously engage in over 30 diverse exercises. Crafted with a blend of minimalist aesthetics and uncompromising durability, the Nolla 2 is a masterpiece of modern fitness equipment. Every metal component is made from stainless steel, ensuring longevity and reliability, even in the harshest outdoor conditions.

NOLLA DOWN

Designed to cater to fitness enthusiasts of all age groups, the Nolla Down boasts a sleek and minimalist design that harmonizes effortlessly with its outdoor surroundings. With the Nolla Down, you can challenge yourself with pull-ups to build upper body strength, engage in various pulling exercises to target your back and biceps, and switch seamlessly to push-ups. Whether you're a beginner or a seasoned fitness enthusiast, the Nolla Down adapts to your level of fitness, making it the perfect outdoor fitness companion for everyone.

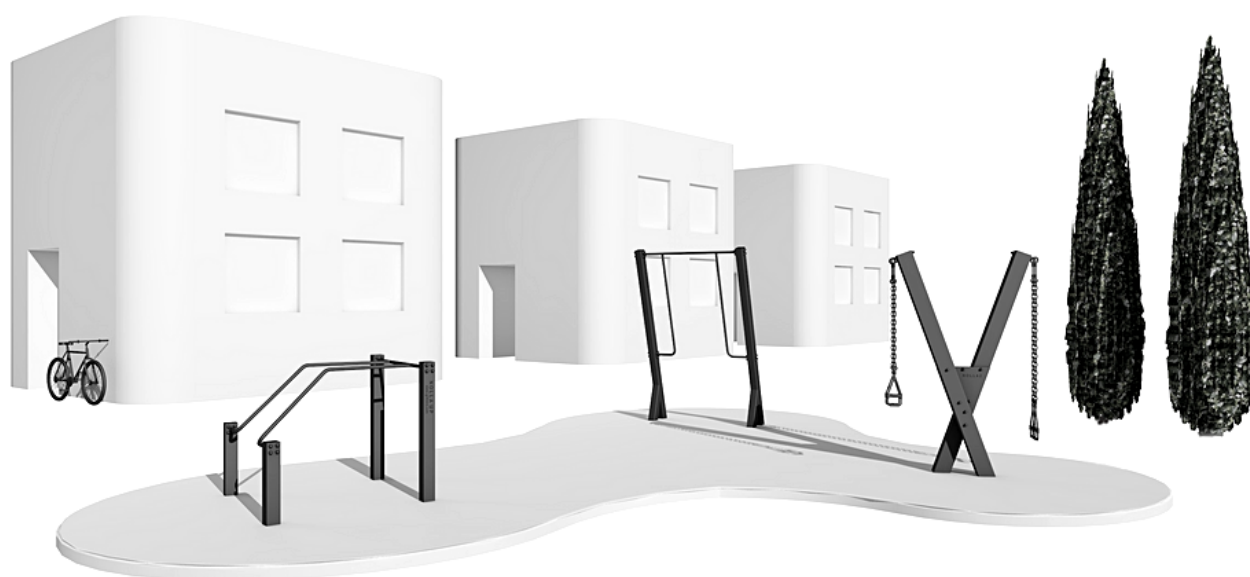

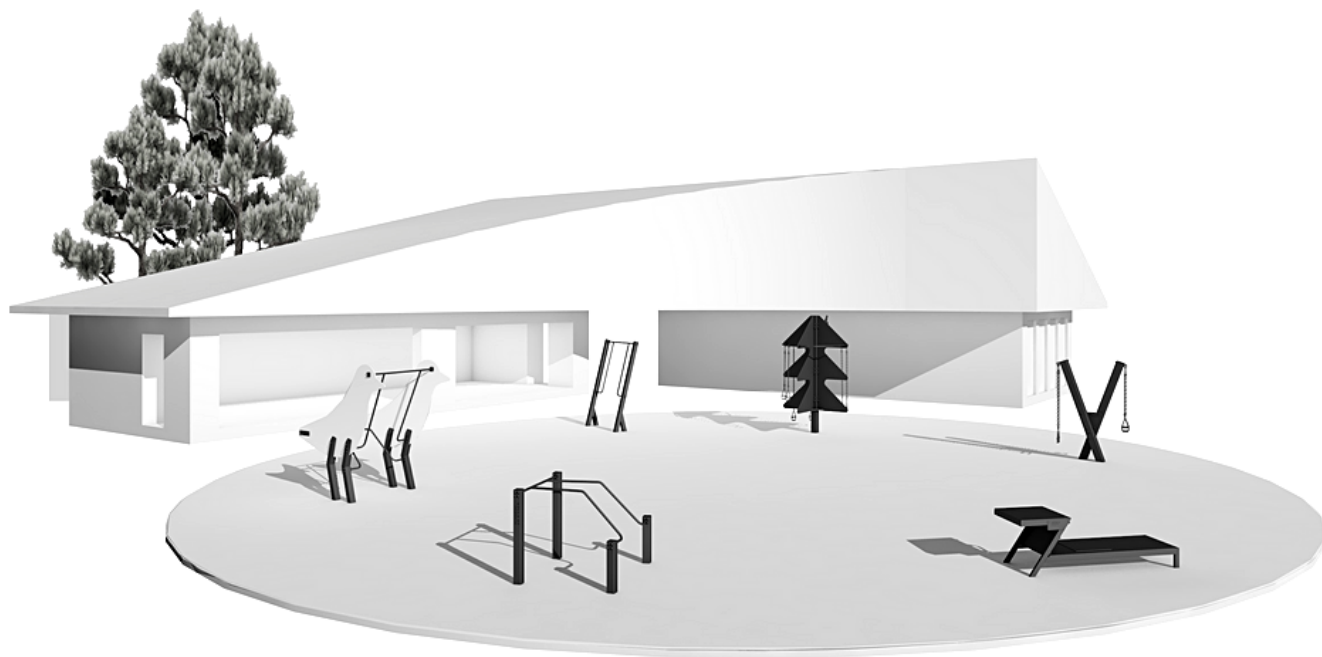

NOLLA UP

Complementing our Nolla series of minimalist outdoor fitness gear, the Nolla Up is the embodiment of strength and simplicity. That's why the Nolla Up offers a comprehensive array of workout options, including push-ups, dips, rows, leg raises for your core, and Bulgarian squats for lower body strength.

INSPIRATION

WORK WITH US
